

Warsaw, November 23, 2009 r.

Polish Civil Aviation Office acting in accordance with art. 38 point 2 of Public Procurement Act kindly informs that has received a question regarding the tender for the computer software license and training package.

Question:

Does the contracting authority within the scope of order includes three items: software license, implementation services and the training package?

Answer:

According to the description of the order scope given in specification of the essential order contract requirements the contracting authority foresees the purchase of the right for temporary use of computer software with an examination program assessing, in compliance with ICAO requirements, the level of English language proficiency of pilots who conduct operations in the international air space. The order covers the installation of the above mentioned computer software on the Civil Aviation Office server and a training package for conducting assessment examinations and managing the system.
